Introduction

Welcome to this short report. The methods in this report are based upon the works of Chris McNeeny, namely his brilliant Affiliate Project X. (I always give credit, where credit is due.)

His ebooks contain many solid pieces of advice and strategies to follow. I chose to apply, and have done very well with, his Leech and Pre-sell methods from Affiliate Project X. But I have greatly expanded upon them since, and this report will present my expanded methodology.

Before I get into the meat of the matter however, I want to mention an important strategic point about backlinks.

Google especially, gives great weight to the number and quality of inbound "backlinks" to your site. The other search engines take this factor into account also, when choosing where to rank your site - but not to the same extent as Google.

However, since recent estimates indicate that Google accounts for 47% of ALL Web traffic, we concentrate on what Google wants.

Besides, optimizing for Google, will help you get ranked highly in the other search engines; whereas the reverse is not guaranteed.

So again, we concentrate on Google.

If you can out-link your competition, Google will consider YOU to be the "owner" of the content - and everyone else will get hit by the infamous "duplicate content" penalty.

Now...

I have kept this voluntarily short, so that you focus on what really works. These simple methods are ready to be applied and can have you earning profits in less than 24 hours.

With the templates you received with this package, it is entirely possible for you to launch a campaign in 3 to 4 hours, and maybe even less when you get the hang of it.

Each campaign should bring in an average of \$50-100 per week, in largely residual income. Particularly strong product launches and high traffic niches (such as Internet Marketing), can bring higher returns.

A quick calculation allows you to see, that if you launch 4 such campaigns per week and your average earnings are \$75, you would be adding to your income stream \$300 weekly.

Players With Money - \$6643 Affiliate Payday

That means a residual income of \$1200 per week, by the end of the first month. This is absolutely attainable to you, if you follow the methods in this guide.

NOTE: The method as presented in the "\$6643" Googleizer videos, and in this FREE version of the Googleizer reports - is a very short-term hit. It is only designed to make money, by ranking your website highly as a top affiliate for a one-time product launch.

But this method actually has much more potential than that. It can be used to create a long-term continual daily income, based upon a website that will remain high in the search engine rankings and continue to receive large amounts of free traffic. So be sure to read that additional material, in the MEMBER version of these Googleizer reports.

Without further ado, let us begin.

The Link Fire to Crush those rankings...

The following is a layered process. That is, you start by adding a "layer" of backlinks, to provide more "Google juice" to your money page, so that it will rank higher on launch day.

Then if necessary, you add another layer, to push your money page even higher in the Google rankings.

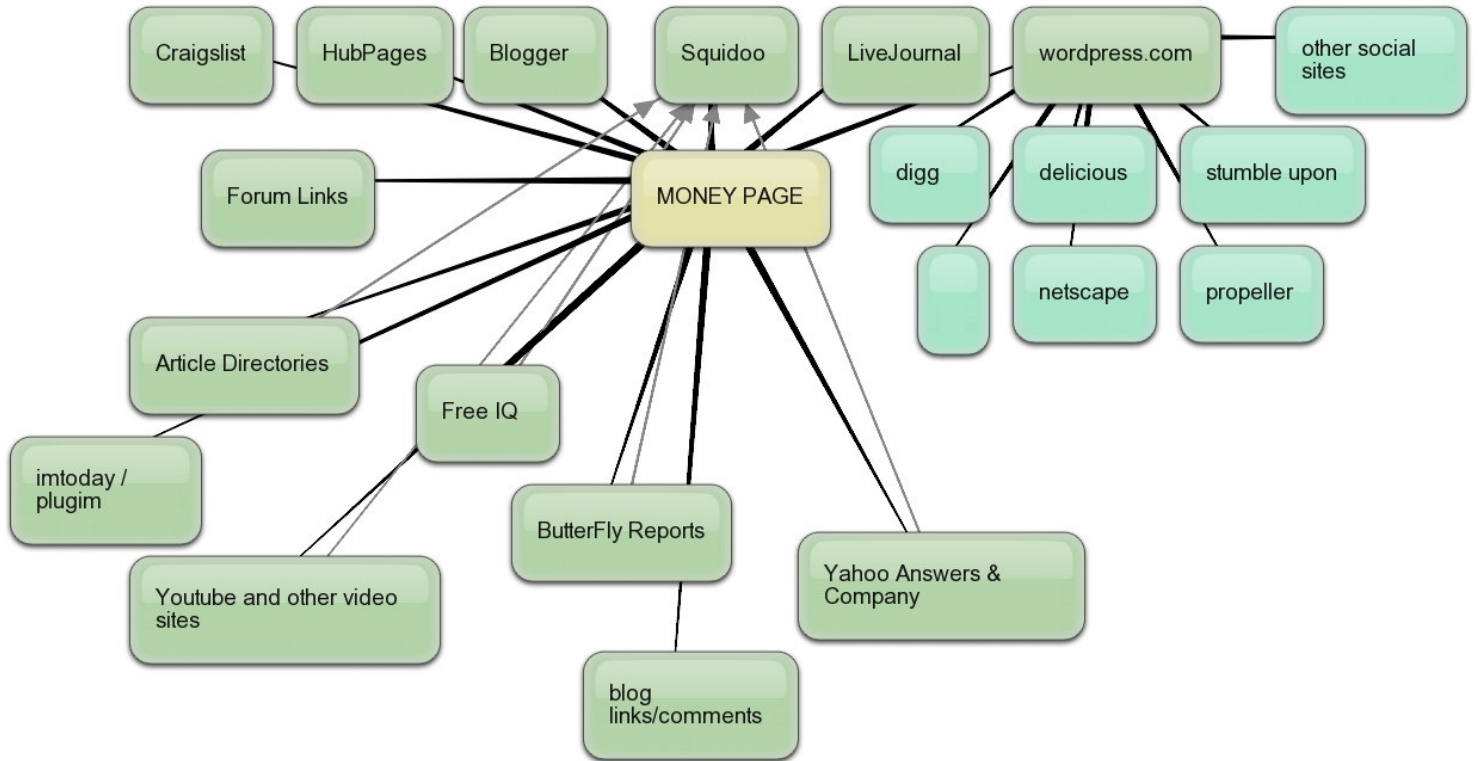

Your goal is to continue to add as many layers as you estimate are necessary, to rank in the #1 position if possible. (This assumes that you have enough time available, to add more and more layers.)

A couple of important points:

1. When you create your sites, use domain names that are as close as possible to the Product Name.
2. All links should use the "natural mix" of Product Name anchor texts, according to the percentages I gave you earlier - to avoid being banned by Google. (Read the Keyword Section of Part One of the Member version of this report - for full details. Or alternatively, you can see a very brief discussion of this, in the free video:)

Players With Money - \$6643 Affiliate Payday

Money site

Platform: Paid - Domain with a blog on it; Free - Squidoo or Blogger

The Paid option is strongly recommended. Only this option, will allow you to eventually put your Money page Google ranking, on "automatic". This is because the more times you follow this process, with a website that YOU own - the higher and higher the Page Rank of that website will become long-term.

Contents: Product Review Pre-sell

Points to: Vendor page (via your affiliate link)

Hub sites

Platforms: All Free - HubPages, Blogger, Squidoo, Live Journal, Wordpress.com

Contents: Post an article about the Product, containing your money page link

Points to: Money page

Create similar articles to post on these sites, by writing up one article and then making it sufficiently unique, by either "synonymizing" it or by changing the paragraphs around. Place your main keywords in the title.

I would suggest that you choose one of these hub sites, to be your "Strong" Hub site. I would recommend using Squidoo or Blogger for this. Often, this will allow you to place a second site of yours on Google's first page, by launch day.

Article Directory sites

Platforms: EzineArticles, GoArticles, SearchWarp, plus 3 others

After using about 5-6 directories, you begin to see diminished returns.

Contents: Submit an article about the Product, with your link in the Author Resource Box

Use modifications of the articles you've already written.

Points to: Money page, Strong Hub

PDF sites

Platforms: Free IQ, Butterfly Reports, plus a couple of others

These sites will distribute your PDF, with links in your profile.

Contents: Convert one of your articles to a .pdf file and post; Create a profile with your link in it

Use PDF995 or CutePDF to convert.

Points to: Money page, Strong Hub

Video sites

Platforms: YouTube, plus other video sites

Contents: Create and post a video

Use a free screen capture software, and video creator.

For the actual video, simply read the main points of the sales letter, while showing a screen shot of the Product Box.

Show the link to your website in the video, and also insert your link in the comments of the video and your profile.

Points to: Money page, Strong Hub

Blog sites

Platforms: Blogs

Contents: Post a comment on their site, and include your link in it

Most blogs use no-follow links on their comments, which will not get any Google juice because Google will not count these links. So Google search "do follow blogs" and "do follow forums", to find those for which the links you include in your posted comments, will count.

Points to: Money page, Strong Hub

Forum sites

Platforms: Forums

Contents: Post a comment on their site, and include your link in your signature file

Points to: Money page, Strong Hub

Answer sites

Platforms: Yahoo Answers, plus other answer sites

Contents: Post a question or an answer, and include your link in it

Post your own questions, or "cherry-pick" questions you can answer about the topic.

Points to: Money page, all Hub sites

The final layer, is to use social bookmarking sites, to boost the power of every one of the previous sites.

Social Bookmarking sites

Platforms: Digg, Delicious, Stumble Upon, Propeller, Netscape, Reddit, plus other social sites

Contents: Create a Profile and submit an article about the Product, containing a link to one of the sites above

Points to: Money page, Hubs, and all other prior sites

Submit the articles, the comments, the videos - to all these bookmarking sites.

Use socialpromoter.com or onlywire.com, to reduce the time necessary to make these submissions.

Conclusion

There are many pieces of the process that can be improved. Most of them involve testing.

Other points I'd like to re-iterate:

1. When you create your sites, use domain names that are as close as possible to the Product Name.
2. All links should use the "natural mix" of Product Name anchor texts, according to the percentages I gave you earlier (Member version) - to avoid being banned by Google.

My final recommendation is to **get started right away** and test your results. The process has been amply defined in this little guide.

Focus your energies on one method until it works.

This is an excellent place to start. **A tried, proven and documented one.**

There is really nothing more to it.

Put these tactics to work for you today, and you will be making job-killing commissions within the next 2 months.

I invite you to join me on my blog (www.netfrontiermarketing.com) and leave your comments or questions there. I will be glad to assist you on your quest for affiliate profits.

Thank you for reading,

Alex Goad
